DETAILED ACTION

This action is in response to applicant's reply filed 1/9/2004.

Drawings

In order to avoid abandonment, the drawing informalities noted in Paper No. 27, mailed on 10/9/2003, must now be corrected. Correction can only be effected in the manner set forth in the above noted paper.

Allowable Subject Matter

Claims 24-25, 28-30, and 32-35 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed in the prior art a ridge-waveguide type semiconductor laser including ion implanted regions in the active region, where the implanted regions define a gain area of the active region having a width greater than the width of the ridge of the ridge-waveguide structure, the width of the gain area supporting a fundamental lateral mode while higher order modes are suppressed by the ion implanted region.

Nagai (US 5,960,020, previously cited) appears to be the closest prior art, disclosing the claimed invention except that the width of the gain area in Nagai is less than the width of the ridge. Nagai teaches that it is a critical aspect of the invention for the width of the gain area to be less than the ridge width, thus there is no suggestion to one skilled in the art to modify this feature of Nagai to reach the applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed 1/9/2004, with respect to the claimed laser being a ridge-waveguide type laser, have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Menefee whose telephone number is (571) 272-1944. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Ip can be reached on (571) 272-1941. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
